

FORCI ART FOUNDATION

Forci Art Foundation

The Forci Art Foundation was established in 2023 by Melanie and Nina van Ogtrop - art loving mother and daughter in law.

The foundation's principal aim is to fund the annual artists-in-residence program for a minimum of three artists at Tenuta di Forci. Our vision and the mission of the foundation is to empower and enable emerging artistic talent to create thought provoking art inspired by the Forci passion for regeneration and sustainability.

Our ambition is simply to spread the regenerative message through brilliant art and thereby creating a network of like minded artists, art connoisseurs, art institutions, galleries and collectors.

Art Residency Program

Guided by its advisory board, the Forci Art Foundation will select and invite annually three emerging artists, active in different media, to reside at the 14th century Tenuta di Forci in Lucca for up to two months. It is hoped that the artists will find inspiration in Forci's sublime surroundings, and the sustainable and regenerative principals that guide the estate.

The foundation will support the artists by facilitating connections with the local community, annually introducing them to one globally established artist, and coordinating a highly-promoted ten-day exhibition to showcase the art created during their residency.

Art Residency 2023 - Artists

Rogier Houwen photographed Forci's magical natural surroundings accentuated by light and dark and radiating his theme of cosmic awareness.

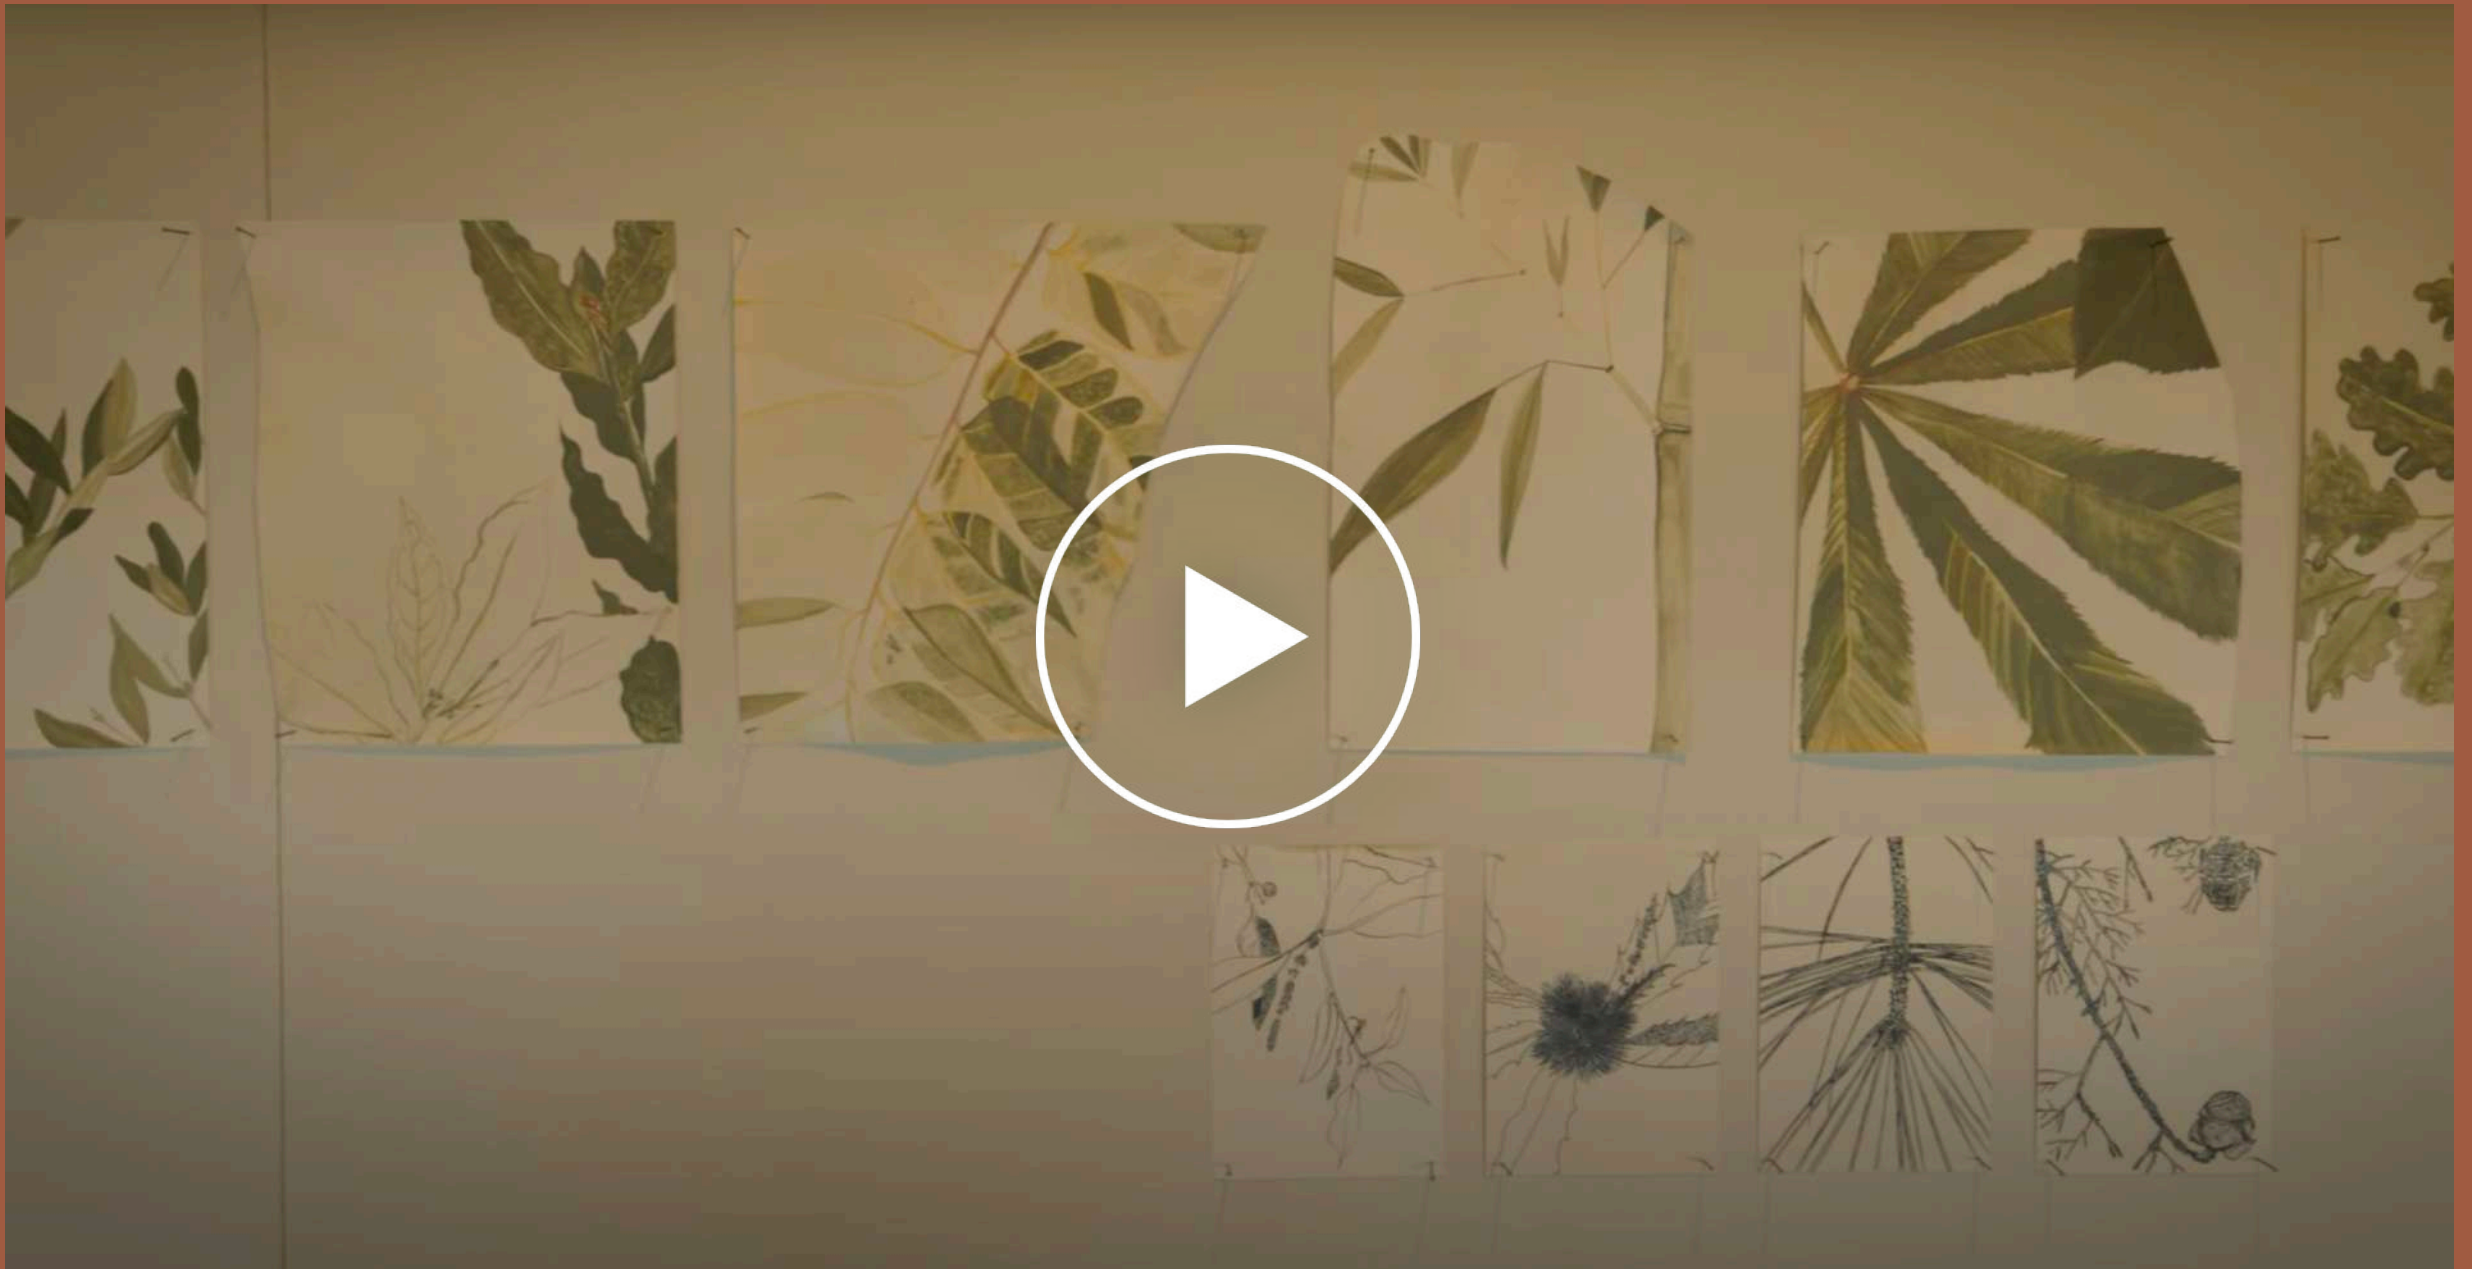

Vincent Mock cognisant of too many people's lack of awareness and possibly interest in our extraordinary world aimed to reconnect us to nature in a physical way and draw attention to our depleted oceans.

Clementine Robertson responded to Forci's complex heritage and deep ecology by capturing the resonant hum between mountain and sea through botanical painting, sculpture and performance.

Art Residency 2023

A wide-angle landscape photograph of a Tuscan hillside. In the foreground, there are several olive trees and a vineyard. The middle ground is dominated by a dense forest of trees and shrubs. In the background, a small town is visible in a valley, and further back, a range of mountains stretches across the horizon under a hazy sky. The text "Art Residency 2024" is centered in the middle of the image.
